Pursuant to a congressional request, GAO reviewed selected activities at the Mississippi Army Ammunition Plant, focusing on: (1) the plants history and cost; (2) Army actions to correct deficiencies that limited the plants production capacity; and (3) the Armys future plans for the plant. GAO found that the: (1) Army initially estimated that the plant would cost about 397. 8 million and would be completed by December 1983; (2) Army now estimates that the plant will cost about 622 million and will not be able to achieve its full planned production capacity until August 1990; (3) Army requested funding for 910, 000 M483A1 projectiles, to be produced at the plant, but had to allocate about 69 percent of that production to other plants; (4) plant has incurred higher production costs than other plants, but its average unit production costs are decreasing; (5) Army and the contractor agreed that a mobilization contract the Army awarded to correct deficiencies at the plant would be timely completed; (6) contractor guaranteed that the plant would achieve its full planned production capacity of 120, 000 projectiles monthly by August 1990; (7) Army plans to place the plant on standby status after the contractor has demonstrated full production capability, at a cost of 50 million to 75 million; and (8) Army will not consider modifying the plant to produce other types of projectiles. This item ships from La Vergne, TN. Paperback.
