Createspace Independent Publishing Platform, United States, 2012. Paperback. Condition: New. Language: English . Brand New Book ***** Print on Demand *****. During the height of the Jurassic period, 150 million years ago, giant dinosaurs strode the Earth and made the ground shake under their mighty footfalls. You ve probably seen these spectacular long-necked dinosaurs in movies like Jurassic Park and in paintings and drawings in natural history books. These creatures go by the name of Apatosaurus (though you ve probably heard of them as Brontosaurus, too, since that was their name for many years, and a few people still use it). In this book, you ll learn all about what made this massive giant great--from what they looked like and ate to where they lived and what they did all day. KidCaps is an imprint of BookCaps; each month we are adding more history books (just for kids!) to our library. Stop by our website to learn more.
