Createspace Independent Publishing Platform, 2017. Paperback. Condition: New. Language: English . Brand New Book \*\*\*\*\* Print on Demand \*\*\*\*\*. Exploring The Creepiest Places On Earth: Don t Even Think About It. Claim Your FREE Bonuses After the Conclusion! Creepy places are everywhere. They often don t look too creepy on the outside, but once you dive into the history, listen to some of the reports of what people have seen or heard, or experience some of the events for yourself, you begin to realize just how many creepy places there are on this planet. Some places are known to be haunted. There are countless stories that have been passed down through the years combined with the modern reports that are added to these tales at an alarming rate. There are places advertised in movies and on TV with famous ghost hunters and paranormal seekers, and there are word of mouth legends passed from locals to visitors. Then there are places that are lesser known. People have heard of the sites, they know that they are old, but they have no idea of the tragedies or tales that have taken place there. Walls that hold secrets no one could bear to see, lakes that bury lives everyone has forgotten about. Paranormal events are rife in these places, whether they be residual hauntings from prisoners convicted of treason, or victims of murders and terrible crimes who continue to walk and haunt the halls of towers, castles, and inns. In this book, we are going to look at a dozen of the best hauntings which take place around the world today, from England and Scotland to Singapore and Mexico and eerie sights in between, this book is full of true tales of hauntings, sightings, and paranormal activity like you have never heard before....
