Condition: New. Publisher/Verlag: LAP Lambert Academic Publishing | Information hiding means confidentiality, unauthorized access of the content and unavailability. Steganography is the art and science that hides any information through an appropriate cover carrier like image, text, audio and video. Digital watermarking is a kind of marker, which is covertly embedded in a noise tolerant signal like image, audio and video. It is usually used to identify the ownership of the copyright. Cryptography is the method of converting plaintext to...
