Andy Andrews believes that good answers come only from asking the right questions. Through the powerful, provocative question, How do you killeleven million people-the number of people killed by the Nazi Germanregime between 1933 and 1945-he explores a number of other questionsrelevant to our lives today: Does it matter that millions of ordinary citizens have checked out of participating in the decisions that shape the future of our country Which is more dangerous: politicians with ill intent, or the too-trusting population that allows such people to lead them How are we supposed to tell the difference between the good guysand the bad guys How does the answer to this question affect not only our country but ourfamilies, our faith, and our values What happens to a society in which truth is absent Andrews issues a wake-up call: become informed, passionate citizens whodemand honesty and integrity from our leaders, or suffer the consequencesof our own ignorance and apathy. Furthermore, we can no longer measurea leaders worth by the yardsticks provided by the left or the right. Instead, we must use an unchanging standard: the pure, unvarnished truth.
