

The Universe of Fluctuations: The Architecture of Spacetime and the Universe

By Burra G. Sidharth

Springer, Netherlands, 2010. Paperback. Book Condition: New. 1st ed. Softcover of orig. ed. 2005. 229 x 152 mm. Language: English . Brand New Book ***** Print on Demand *****.In 1997, contrary to the ruling paradigm which was that of a dark matter filled, decelerating universe, my work pointed to a dark energy driven- accelerating universe with a small cosmological constant. Moreover, the many supposedly accidental Large Number relations in cosmology, including the mysterious Weinberg formula were now deduced from the theory. Observational confirmation for this scenario came in 1998, while dark energy itself was finally reconfirmed in 2003, thanks to the Wilkinson Microwave Anisotropy Probe and the Sloan Digital Sky Survey. The 1997, and subsequent work was the consequence of mainly three considerations: dark energy or the well known Zero Point Field, fuzzy spacetime and fluctuations. Indeed String Theory and Quantum Gravity approaches have had to discard the smooth spacetime of General Relativity and Quantum Field Theory, in a quest for a unified description of these two pillars of twentieth century physics. This book is the result of some seventy seven papers published in international journals, and partly an earlier book, *The Chaotic Universe: From the Planck to the Hubble Scale* (Nova Science, New York, 2001), as also several lectures delivered in Universities and institutes in the United States, Canada and...

Reviews

This book is definitely worth acquiring. I have gone through and so I am certain that I will likely read through again in the future. It's been printed in an exceptionally basic way in fact it is only after I finished reading this publication in which it actually altered me, changing the way in my opinion.

-- **Andres Bashirian**

Comprehensive guide for publication fanatics. This really is for all who state there had not been a well worth reading through. I discovered this ebook from my dad and I encouraged this book to find out.
