

The Red Book of Niagara: A Comprehensive Guide to the Scientific, Historical and Scenic Aspects of Niagara; For the Use of Travelers (Classic Reprint) (Paperback)

By Irving P Bishop

Forgotten Books, 2017. Paperback. Condition: New. Language: English . Brand New Book ***** Print on Demand *****. Excerpt from The Red Book of Niagara: A Comprehensive Guide to the Scientific, Historical and Scenic Aspects of Niagara; For the Use of Travelers For more than two hundred years the Niagara region has been the most celebrated part of America. In the earlier period of our history it was the doorway to the upper lake region and the Mississippi Valley, for the possession of which French and English and English and Colonists struggled in turn. From a scientific point of view it has presented problems which have interested almost every geologist of distinction, both in America and Europe. As a scenic wonder the Cataract has probably attracted more visitors than any other single natural object in the world. It is the purpose of this handbook to enable the visitor, whether his tastes be for the scenic, the scientific or the historical, to see Niagara from his own point of view, with the minimum outlay of time and money. The book is based upon the author's personal acquaintance with this region, which for thirteen years has been his field for...
