MANUFACTURING STRATEGY FOR APPAREL MANUFACTURE

Condition: New. Publisher/Verlag: Dictus Publishing | The case of Mauritius | The need for manufacturing companies to develop competitive advantages in terms of factors other than cost is investigated. The IDEF0 system-modelling tool was initially used for the development of an apparel manufacturing system reference model to illustrate details of all activities taking place in a typical company. The model was used for the development of a manufacturing strategy audit tool to enable companies to make an assessment of their..
