## THE SCIENCE OF MYTHOLOGY (PAPERBACK)

Taylor Francis Ltd, United Kingdom, 2001. Paperback. Condition: New. 2nd Revised edition. Language: English . Brand New Book. When Carl Jung and Carl Kerenyi got together to collaborate on this book, their aim was to elevate the study of mythology to a science. Kerenyi wrote on two of the most ubiquitous myths, the Divine Child and The Maiden, supporting the core stories with both an introduction and a conclusion. Jung then provided a psychological analysis of both myths. He defined myth as a story about heroes interacting with the gods. Having long studied dreams and the subconscious, Jung identified certain dream patterns common to everyone. These archetypes have developed through the centuries, and enable modern people to react to situations in much the same way as our ancestors. From nuclear annihilation to AIDS and Ebola, we continue to engage the gods in battle. Science of Mythology provides an account of the meaning and the purpose of mythic themes that is linked to modern life: the heroic battles between good and evil of yore are still played out, reflected in contemporary fears.
