## Ill Take Half A Mathematical Enrichment Story

By Robert F. Gordon .

CreateSpace Independent Publishing Platform. Paperback. Condition: New. This item is printed on demand. 30 pages. Dimensions: 9.0in. x 6.0in. x 0.1in. Some students in elementary school wonder if there is any more mathematics to learn after arithmetic and basic geometry. They wonder what else there is to mathematics after you learn fractions and how to calculate the area of a circle or a triangle. They are ready to learn something new and to build on what they know. This book is written for fourth- to sixth-grade students to provide enrichment in mathematics and can be useful for teachers to supplement the math curriculum in those grades. Enrichment topics are presented by engaging the reader in a fantasy story. Building on the mathematics already learned in elementary school, the story enhances the students understanding of general mathematical ideas of equality, congruence, symmetry, and uniqueness and also introduces mathematical reasoning. It is a story within a story that will surprise the reader, showing outcomes that are contrary to the readers preconceived ideas. The examples give readers a clearer understanding of the mathematical concepts and challenge their thinking. Throughout the story are arithmetic and geometry results that readers can choose to verify or not,...
