Dimensions: 9.0in. x 6.0in. x 0.7in. Excerpt from Temples, Tombs, and Monuments of Ancient Greece and Rome: A Description and a History of Some of the Most Remarkable Memorials of Classical Architecture

As an introduction to the study of Architecture, or as a guide to some of the most remarkable edifices of the Ancient World, the present volume may be found useful. It will show what wonders were achieved by the artists of the old time; and suggest, perhaps, from their careful examination, some canons of criticism which may avail the reader when he comes to inspect certain modern specimens of the so-called classical style. The first book is devoted to examples of Greek Architecture including the glories of Athens, and the temples of Sunium, Aegina, and Corinth. In the second, the writer treats of Roman Architecture; and, after surveying the Eternal City, carries the reader to Tivoli, Paestum, Verona, Puteoli, Segeste, Girgenti, and Taormina.
