COSIMO CLASSICS, United States, 2007. Paperback. Condition: New. Language: English . Brand New Book ***** Print on Demand *****.One of only two published works from Irish archaeologist and linguist HENRY O BRIEN (1808-1835), this classic 1834 study of the ubiquitous round towers of Ireland-sometimes published under the title The Round Towers of Atlantis-is hailed by many as a definitive work on the esoteric mysteries of the ancient world. Perhaps the first modern study of pre-Christian megalithic architecture and its connection to the lost world of Atlantis and the first civilizations of Persia, India, and China, this is a treasure trove of information on the secret societies of early Egypt and modern Ireland, including the Druids. From the strange structure of Ireland s round towers to the nature of the wisdom the ancient Irish possessed, this is an essential resource for students of the mysteries of the ancient world.
