

Exploring Microsoft Office 15 Volume 1

By Mary Anne Poatsy, Keith Mulbery, Cynthia Krebs

Pearson Education (US), United States, 2013. Spiral bound. Condition: New. Language: English . Brand New Book. For use in the Office Applications course or for anyone interested in developing their Microsoft Office 2013 skills. Move beyond the point and click The goal of the Exploring series has been to move readers beyond the point and click, helping them understand the why and how behind each skill. The Exploring series also enables readers to extend the learning beyond the classroom-a lot of learning takes place outside of the classroom, and the Exploring series provides learning tools that students can access anytime, anywhere. The Exploring series seeks to move readers beyond the basics of the software at a faster pace, without sacrificing coverage of the fundamental skills that every one needs to know.

Reviews

This publication may be really worth a go through, and a lot better than other. It really is written in simple terms and never difficult to understand. Once you begin to read the book, it is extremely difficult to leave it before concluding.

This book will not be simple to get going on reading but extremely exciting to read through. Yes, it can be playful, still an interesting and amazing literature. I am very easily could possibly get a delight of reading a written book.
