Taylor Francis Ltd, United Kingdom, 2015. Hardback. Condition: New. Language: English . Brand New Book. The BSC Critical Criminology Network s Book of the Year 2016 Why do some men use physical violence against others? How do some men come to value physical violence as a resource? Drawing on in-depth ethnographic research conducted with men involved in serious violence and crime over a period of two years in the North of England, Anthony Ellis addresses these questions and the complex relationship between these men and their use of physical violence against others. Using detailed life-history interviews and extended periods of observation with these men, Men, Masculinities and Violence describes their `inner subjective lives and experiences, exploring how they came to value violence, why they are willing to use it against others and risk serious harm to themselves in the process. Over the course of the book a picture emerges of a group of men that have experienced and perpetrated serious violence throughout their lives. This book advances a critical psychosocial understanding of such violence by situating these masculine biographies within their immediate contexts of de-industrialisation, fracturing working class community and culture, and broader shifts within the political economy of liberal capitalism. With its synthesis of rich ethnographic material and new developments in criminological theory, this book is essential reading for students and academics interested in issues of gender and violence.
