The human nervous system contains about 10 billion nerve cells. Most of them are in the brain. Those nerve cells in the brain can lead to electrical waves which produce the brain waves. Thus, our brain broadcast at different frequencies throughout the day. The Foundation was founded by Dr. John HARP in 2000, with the aim of improving human welfare, communication and understanding. They were the pioneering institution for the study of brain waves. Their work on autism, Alzheimers, Parkinsons disease and epilepsy gave them worldwide fame. In many countries The Foundation has centers for patients suffering from these diseases. Dr. HARPs work proved that some of the people has very strong brain waves. Those people are named MIXERS by the Foundation. And some people are better to detect brain waves than others. These people were called READERS by the Foundation. The Foundation today, is a huge organization with centers all over the world. In your neighbourhood you have MIXERS and READERS whose are trained by the Foundation. This book is the story of one of them. This item ships from La Vergne, TN. Paperback.
