Createspace, United States, 2012. Paperback. Book Condition: New. 192 x 126 mm. Language: English . Brand New Book \*\*\*\*\* Print on Demand \*\*\*\*\*.Silly, surreal and sometimes serious, these thirty-one very short stories cover a vast range of subjects and themes. Written entirely during July 2012, these flash fiction pieces are accompanied by a deeply unscientific analysis of the challenge that spawned them: to write thirty-one stories in thirty-one days. From lovesick androids to disgruntled minotaurs, the stories in this book embrace Classical mythology, futuristic sci-fi, and a variety of other genres that would much rather have stayed out of the way. Within these pages, you will find disgraced superheroes, unionised zombies, steam-powered clowns and incompetent astronauts. Includes a non-fiction section analysing the results of this month-long experiment. In the interests of making these stories as widely available as possible, an electronic version of this book is available for FREE (ISBN: 9781476408859). This paperback is intended for those who wish to have a copy on their bookshelf, or who do not approve of those new-fangled ebook things.
