

A Dictionary of the Economic Products of India: Volume 6, Sabadilla to Silica, Part 2 (Paperback)

By George Watt

CAMBRIDGE UNIVERSITY PRESS, United Kingdom, 2014. Paperback. Condition: New. Language: English . Brand New Book ***** Print on Demand *****.A Scottish doctor and botanist, George Watt (1851-1930) had studied the flora of India for more than a decade before he took on the task of compiling this monumental work. Assisted by numerous contributors, he set about organising vast amounts of information on India s commercial plants and produce, including scientific and vernacular names, properties, domestic and medical uses, trade statistics, and published sources. Watt hoped that the dictionary, though not a strictly scientific publication , would be found sufficiently accurate in its scientific details for all practical and commercial purposes . First published in six volumes between 1889 and 1893, with an index volume completed in 1896, the whole work is now reissued in nine separate parts. Volume 6, Part 2 (1893) contains entries from Sabadilla (an imported plant, the seeds of which produce a neurotoxin) to silica (used in the production of glass).
